THE GITCOIN WEEKLY

Hi there 🙌

Want to work an issue, but don't have any ETH to make an initial submission? Last week, the Gitcoin faucet was launched! Send a request in to the faucet if you're looking to make a claim, and we'll send back just enough ETH for you to make your first Ethereum transaction.

We're quite enamoured with helping developers envision the future of web3. So we figured we'd share our web3 content pieces from last week again. Here's the two-minute video on MetaMask and our web3 vision piece.

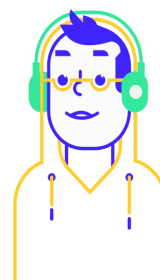

What else is new?

- I was on FLOSS Weekly last week to discuss Gitcoin's place in open source
- This week, we launched a repo called GIPS -- Gitcoin Improvement Proposals. Got an idea for the future of Open Source Incentivization? Submit it as a GIP.
- SXSW was great fun! Vivek presented Gitcoin at the Ethereum Lounge to good reception. Next up: Ethereum NY and Boulder Startup Week in May. Until then, #buidl!

I hope to see you on slack, or on the community livestream TODAY at 3pm MST ! 🤖
