THE GITCOIN WEEKLY

Hi there 🙌,

Were any of you at ETHWaterloo in Canada 🇨🇦 this past weekend?

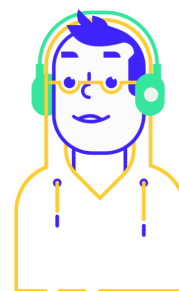

I got to see Vitalik speak about Byzantium & privacy on the blockchain. What a presence he is! Speaking of Byzantium, it's live. 🌈🌈 I'm double-rainbowing over here because the fees on the mainnet are now so low :)

One of the other outcomes of the ETHWaterloo hackathon is the Gitcoin iOS App proof of concept. If you'd like to help move it from proof of concept to production app, I'd love to hear from you.

Devcon3 is only 2 weeks out. I'm pretty excited for all the talks, the beach, and to hang out with other OSS devs. Are you going? Say whats up on slack.

The focus right now at Gitcoin Core HQ is **Pilot Programs**. I've still got a couple pilot program slots left. Want to work together? Reach out on slack.
