🦉 THE GITCOIN WEEKLY 🦉

Hi there 👋

Many people ask me why web3 matters, philosophically, and how to use it, tactically. @vivek wrote up his thoughts on how web3 aims to improve upon our Internet as we near the web's 30th birthday. Give it a read and let us know what you think.

We also created a two-minute video explaining how to interact with web3, namely using MetaMask and ETHGasStation to interact with Ethereum's blockchain. Hope you enjoy!
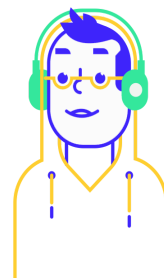

What else is new?

- Code Sponsor is on track for re-launch April 1. Follow the progress here!
- We'll be at SXSW this week! If you're in town, RSVP here to hang.
- Have you heard about Ethereal NY? We'll be there in May and would love to see you.

I hope to see you on slack, or on the community livestream TODAY at 3pm MST ! 🤖
